- SQL
- MongoDB
- Postman (API Testing)
- Git and GitHub
- Figma
- RESTful API Development
- Authentication & Authorization

LANGUAGES

- Tamil
- English

PROFILE

Motivated HND Software Engineering graduate with experience in programming, web development, and system design. Currently enhancing skills in Machine Learning, AI, and Full-Stack Development. Eager to contribute to innovative software solutions.

INTERN – MERN FULL STACK DEVELOPMENT

PineappleAI IT Company, Jaffna
09 May 2025 – Present

- Contributing to the development of a POS (Point of Sale) System as part of a project team.
- Currently managing and enhancing the ERP System, including API documentation, system design, and frontend-backend integration.
- Working with the MERN stack (MongoDB, Express.js, React.js, Node.js) to build scalable web applications.
- Gaining hands-on experience in project management, API development, and system deployment.

EDUCATION

Jaffna Central College, Jaffna

Grade One to advance level 2005 to 2018

Bcas campus, Jaffna

Higher National Diploma (HND) in Computing
August 2023 to January 2025

**BEng(Hons) in Software Engineering at Esoft
Campus Jaffna. December 2025**

AI PROJECT

AI-Based Face Detection Banking System (Python, Flask, SQL)

- Developed a face recognition-based authentication system for secure banking operations.
- Implemented AI-driven face detection to verify users and enhance security.
- Integrated with SQL database to manage user records and authentication logs.
- Features include login, transactions, reports, and security alerts.

SELVARASA NISHOTHMAN

ASSOCIATE FULL STACK SOFTWARE ENGINEER | MERN STACK DEVELOPER |
HND GRADUATE IN SOFTWARE ENGINEERING

PROJECTS

Health care website

Technologies Used: HTML, CSS, JavaScript

- Designed and developed a responsive website for a healthcare service platform.
- Implemented user-friendly interfaces for browsing medical services, booking appointments, and accessing healthcare resources.

Book shop POS system

Technologies Used: Java, Database Management

- Developed a point-of-sale system for a bookshop to manage inventory, sales, and customer transactions.
- Integrated database functionality to store and retrieve book inventory, sales records, and customer details efficiently.

Coffee Shop Web Design

- Tool Used: Figma
- Created a visually appealing and user-friendly web design concept for a coffee shop.
- Designed intuitive layouts for menus, promotions, and online ordering to enhance user experience.

I have observed Nishothman to be a dedicated and proactive learner. He demonstrates strong academic abilities, a positive attitude, and a genuine interest in the software field. His performance in both theoretical and practical components has been consistently commendable. I believe he will be a valuable asset in any academic or professional environment.

Ms Ushamini Kuleswararajan,

Deputy Head of Academic Affairs and Compliance,

ESU Jaffna arathy@bcas.lk
